Subject:-- Boundary between Mysore and South Kanara.

I am directed to enclose a copy of a letter from the Government of Madras, No. $\frac{2817E}{26-3}$, dated the 24th November 1926, and to enquire whether the boundary as now defined has been finally accepted and ratified by the Mysore Government.

Boundary between Mysore and South Kanara.

I have the honour to refer to your letter No.D.2533-1/ dated the 24th January 1927, and to state that the Government of Mysore accept the boundary as finally settled by the Survey of India Officer deputed for the purpose and as shown in the Vandyke prints.

Certain sketches prepared by the Officer who represented the Madras Government before the arbitrator were sent by that Government for ratification by the Durbar. But these have been returned by them without ratification stating that the maps in question were maps of only certain portions of the Mysore-South Kanara boundary and appeared to differ slightly from the vandyke prints prepared according to the settlement effected by the arbitrator and that the vandyke prints alone were authoritative and had to be accepted as binding on both the Madras Government and the Mysore Durbar.

To Under Secretary

Secretary has directed an examination of the question whether the Local Government have got power to accept as settled the boundary between Mysore and South Kanara and whether the sanction of the Govt of India should not be obtained before hand for the settlement of the boundary.

2. Attention is solicited to the list of Central Subjects given at pages 128. 129 of the Madras Legislative Council manual vol I. 'Relations with Indian States' - Item (3) - and 'Territorial changes other than Inter Provincial and declarat of laws in connection therewith' - item 42 - are Central Subjects. The boundary settlement question will properly come under the latter head (item 42). If the settlement of the boundary involves any territorial changes the sanction of the Govt of India should be obtained for the settlement.

3 In the present case, the boundary was settled in 1880-81 by the Settlement Commissione

We ~~were~~ are now ~~only~~ concerned only with the identification of the boundary line laid down in 1880-81 and relaying it. It was difficult to relay the boundary line. The Govt of India were requested in February 1920 to depute an officer of the Survey of India for the identification of the line / both Governments ~~represented~~ deputing their ~~own representatives~~ officers to represent their interests. Both the Governments also agreed that the decision of the Survey of India officer should be accepted as final in case of dispute.

The officers worked for three seasons 1920-21 21-22 and 1924-25 and the boundary as laid down was finally accepted by the Madras Govt in G.O. No 1156 dt 15-7-26. If it can be proved that the boundary now set up is identically the same as that already approved by the Govt of India in 1880-1 or at any other time, the sanction of the Govt of India is not necessary, but if this cannot be easily proved it is open to any one to challenge the present boundary until it has received legal approval

Please see the Chief Secretary's note on page 3 above.

It does not seem possible to say that a boundary now settled is exactly the same as that settled by Messrs Sherrock and Col Macintaire and approved by the Government of India in 1881. If the (D) in Enc boundary line now laid down requires the sanction of the Government of India the reply of the Mysore Government to our letter No 1157 of Rec'd 15-7-26 may be (H) awaited.
